Re: Web Developer

Dear Sir/Madam

I am writing this application to apply for Senior Web Developer Position. I want to apply to work at your company because I have a lot of knowledge and experiences related to my major as Web programming which can be an asset to work in one of your team.

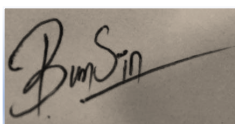

I already graduated at **Passerellesnumeriques Cambodia (PNC)** in November 2016. I studied several subjects such as HTML, CSS, CSS3, Bootstrap, JavaScript, jQuery, C programming, Design (Photoshop), Database (MySQL, SQL Server), C#, ASP.NET MVC, PHP, LARAVEL, CodeIgniter, Java, Android, and CMS (WordPress) which are the basics of web programming. On the other hand, "Professional life" is a subject which taught me how to work in teams or to communicate well with others. Moreover, I have studied English every quarter to be able to speak and write well.

Until now, During my working with **Global Liquidity Exchange Co.,Ltd**, I gain hands-on experience design, code and implement website. In my lastest my project, I redesigned a company website for a privacy company, However I also have worked as **Network Administrator**. I've had the opportunity to learn the importance of this role and what it takes to execute is successfully. Combining my extensive field knowledge and strong determination to achieve this grate results.

I would be delighted if you could give me the opportunity to discuss with you. If you agree with my qualifications, you could reach me via: 0962711117 or email at me : bunsin.toeng@gmail.com Now I'm looking forward to hearing from you soon.

Thank you for your consideration and your time.

Sincerely Your

A handwritten signature in black ink, appearing to read 'Bunsin', with a horizontal line extending from the end of the signature.
